

TC 01 Hexagonal coupling nut with two different threads, zinc plated

TECHNICAL DATA SHEET

M	diameter of the metric thread
h	nut height
SW	wrench size
S_p	Stress under proof load
A_s	stress area
F_{m,min}	minimum ultimate tensile load

Additional information

Reference standard:	class 8 according to DIN 267
	class 6S according to UNI 3740-4
Material:	Carbon steel
Durability:	White Zinc plated, 3 [µm] minimum
Fire reaction:	A1 according to EN13501-1
