

Surface Protection Films

SuperTough® Surface Protection Films are self-adhesive polythene films designed for the temporary protection of various surfaces against dirt, dust, liquid spillages and general foot traffic. They are designed to be easily applied and removed, leaving no residue behind and reducing cleanup times. Films can be used both residentially and commercially.

Range Overview: SuperTough® Surface Protection Films

Carpet Surface Protection Film 100m x 600mm [CLEAR]

Our Carpet Surface Protection Film Rolls (CLEAR) are there to protect carpets from dirt, dust, spillages and general foot traffic. The film is supplied on rolls of 100m length and 600mm width, offering a plentiful supply. The film is finished in CLEAR and can be easily identified compared to other surface protection films we offer, as each film is a different colour dependent upon its application surface. Each roll is supplied individually boxed and if an entire roll is not used immediately, rolls can be stored back inside of their boxes, making them easily identifiable and keeping them clean for future uses.

Hard-Surface Protection Film 100m x 600mm [RED]

Our Hard-Surface Protection Film Rolls (RED) are there to protect hard floors & surfaces (such as laminate, vinyl, and tiles) from dirt, dust, spillages and general foot traffic. The film is supplied on rolls of 100m length and 600mm width, offering a plentiful supply. The film is finished in RED and can be easily identified compared to other surface protection films we offer, as each film is a different colour dependent upon its application surface. Each roll is supplied individually boxed and if an entire roll is not used immediately, rolls can be stored back inside of their boxes, making them easily identifiable and keeping them clean for future uses.

Window/Glass Surface Protection Film 100m x 500mm [BLUE]

Our Window/Glass Surface Protection Film Rolls (BLUE) are there to protect windows & glass from dirt, dust and spillages. The film is supplied on rolls of 100m length and 500mm width, offering a plentiful supply. The film is finished in BLUE and can be easily identified compared to other surface protection films we offer, as each film is a different colour dependent upon its application surface. Each roll is supplied individually boxed and if an entire roll is not used immediately, rolls can be stored back inside of their boxes, making them easily identifiable and keeping them clean for future uses.
